

**UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
WASHINGTON, DC**

SERVED April 9, 1996

**Available U.S.-Brazil All Cargo Charters
April 1996**

NOTICE

In September 1995 the Government of Brazil permitted U.S. carriers to operate a total of 250 additional charters for the period September 1995 through April 1996, subject to the condition that during this period no more than 50 flights are operated each calendar month. By Order 95-9-20, the Department established procedures for distribution of these flights.

A review of our records indicates that a total of 221 charters have been operated from September 1995 through March 1996, and 16 charters were allocated for the month of April, leaving a balance of 13 charters that are available for allocation for the remainder of April.

The heavy demand for cargo charters convinces us that we should make immediate use of these available flights. Therefore, any U.S. carrier interested in using the available April charters should apply to the U.S. Air Carrier Licensing Division, Room 6412, 400 Seventh Street, SW, Washington, DC 20590 no later than noon on April 11, 1996. A copy of the charter contract should accompany the request. Given that no more charters are available in the regular charter pool, we intend to afford preference to requests from carriers that have no other access to Brazil all-cargo charters (*i.e.*, carriers without outstanding flights under the advance allocations granted by Order 95-6-35). Specifically, we will consider first the applications of all applicants without any other access to Brazil under the first-come, first-served distribution procedures set forth in Order 95-9-20. If there should be any charters remaining for allocation, we would then distribute them to the other applicants also using the procedures set forth in Order 95-9-20.
